SKILLS

PROGRAMMING
JavaScript • Ruby On Rails • ReactJS
NodeJS • NestJS • SQL • CSS
Familiar:
Microservices • AWS • Temporal
Workflow • MongoDB

OTHER ACHIEVEMENTS

Career Guide & Mentoring

• Mentored 60+ students and professionals
• Help students to kickstart in programming and software development journey by teaching Software Engineering and programming languages like JavaScript, SQL etc.

SUMMARY

- Experienced software engineer with over six years of expertise in full-stack development, specializing in scalable web applications and intuitive user interfaces. Proficient in multiple programming languages and frameworks and demonstrated ability to collaborate in cross-functional teams, delivering high-quality software solutions on time.

EXPERIENCE

BUGCROWD [Encora] | Senior Software Engineer
May 2021 - Present | Bangalore, India

- Created a report generation framework with Ruby on Rails and ReactJS which reduced the manual report generation process by 50%.
- Worked on authentication micro-service and made use of ory-hydra.
- Designed and implemented activity system based on different user roles.
- Worked on a few POC's around microservice architecture.

KIPROSH | Software Engineer
May 2018 – May 2021 | Mumbai, India

- Integration with third party services like Twilio and Voicebase using Ruby on Rails and ReactJS which automated the calling and notification process.
- Migrated a project from Elixir to NodeJS - ExpressJS ecosystem.
- Involved in development of COVID-19 dashboard with ReactJS which received a huge shout-out on social media platform
- Designed and developed real time chat

INFOSYS | Software Engineer Trainee + Systems Engineer
Nov 2015 – March 2018 | Mysore, India

- Worked as a support engineer in Banking and Insurance domain project and assisted development team in fixing production issues.

OTHER PROJECTS

SICK FITS | Self Learning Project

- An E-Commerce web application to purchase foot-wares and clothing.
- Skills: Javascript, ReactJS, NextJS, GraphQL, Prisma, Stripe.

HOT SLICES | Self Learning Project

- A pizza selling online store.
- Skills: Sanity Headless CMS, Javascript, ReactJS, Gatsby, Stripe

LINKEDIN CLONE | Self Learning Project

- A linkedin clone project.
- Skills: ReactJS, Firebase, Flexbox, CSS Grid

AWARDS

2019	3rd position	ML Hackathon, Great Learning
2021	Budding Star Award	Project contribution, Bugcrowd
2022	Customer Success Champion	Project contribution, Bugcrowd
2023	Extraordinary Client Services	Project contribution, Bugcrowd
2023	Super Encorian	Project contribution, Bugcrowd
